

STAY ACTIVE during & after reading:

1. Think:

- Which strategies could help me with:
 - tricky words?
 - tricky ideas?
- How do the ideas connect to my prior knowledge?
- What is important to remember?
- What does the author want me to know, do or think?

2. Check:

- Do I understand what I am reading?
- How could I read this differently to understand it better?
- Do the ideas fit with what I know?
- How do I feel about what I've read?
