STAY ACTIVE when reading:

Think:

Which strategies could help me with:
- **tricky words?**
- **tricky ideas?**

How do the ideas connect to my prior knowledge?
What is important to remember?

What does the author want me to know, do or think?

Check:

Do I understand what I am reading?

How could I read this differently to understand it better?

How do I feel about what I've read?
