

# Right or Wrong?

Some companies test products on animals before they are sold to humans. For example, some shampoos are tested on animals to see whether they irritate or hurt the eyes. What do you think of this practice? Should companies be allowed to test products on animals?

**Audience:** General

**Text Type:**

Non-literary:  
• Persuasive

**Purpose:**

- To share your opinion and persuade others to share your views

**Ideas:**

- State your opinion
- Give reasons for your thinking
- Include examples which support your views
- You should be logical (make sense), ethical (seem fair, right and just) and emotional (help readers to feel empathy)
